We have evaluated your Financial Aid Award Letter, and have found the following:

Award Letter (offer of funding) Evaluation			
College:	Whitworth Coll	% of Need Met **:	88
Total Cost of Attendance **:	\$28,185	% of Gift Aid Offered **:	55
- Expected Family Contribution:	\$7,279	Target Gift Aid:	\$10,119
= Student's Financial Need:	\$20,906	Gift Aid Awarded:	\$12,440
			Difference:
			\$2,321

**EXCELLENT OFFER !!**

\*\* Figures and percentages are based on the institution's reported cost of attendance and history of awarded funding.

The Student's Financial Need is determined by subtracting the Expected Family Contribution (EFC) from the Total Cost of Attendance (COA). Although this is the most common formula, be advised that some institutions will vary their formula slightly, which will alter the Student's Financial Need and ultimately the funding offered. This generally enables a school to offer students, they most want to attract, additional funding; while others may be offered less.

In the above evaluation, the Student's Financial Need is multiplied by the Percentage of Need Met and Gift Aid Offered to determine the Target Gift Aid amount. This is the amount of Gift Aid (money that does not have to be repaid) that the student may expect to receive directly from the institution. Please be advised that the amount and type of funding that the student receives is ultimately the decision of the institution's Financial Aid Officer

Private sector scholarships are also a form of gift aid, and must be reported to the institution's Financial Aid Office and included in the student's funding package. Private sector scholarships, however, are typically NOT included in the institution's original offer of funding.
